## DALTON'S BIG CONTRACT.

Furnishing Crushed Limestone For 31 Miles of Indiana Turnpike.

A party of half a dozen turnpike men from Mt. Vernon, Ind., were in the city Friday and closed a contract with H. M. Dalton for broken stone to build 31 miles of 12-foot pike on roads leading into Mt. Vernon. The stone will be quarried and crushed at Mr. Dalton's quarry in this city and shipped by the L. & N. railroad, about 17 car loads a day. From Mt. Vernon it must be hauled out ten miles in three directions. There is no turpstone stone to be found in that part of Indiana, and to build the roads under these disadvantages costs more than \$3, 100 per mile, nearly double what they would cost in this country. Mr. Dalton has equipped his quarry with the newest and most powerful machinery and his enterprise deserves to rank as one of the leading industries of this city. The supply of limestone rock in and about the city is practically inexhaustible, and vast quantities of the crushed stone will no doubt be shipped to less favored localities in the future.

## Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

## Consumption

is destruction of lung by a growing germ, precisely as mouldy cheese is destruction of cheese by a growing germ.

If you kill the germ, you stop the consumption. You can or can't, according to when you begin.

Take Scott's Emulsion of Cod Liver Oil: take a little at first.

The genuine has this picture on it, take no other.

It acts as a food; it is the easiest food. Seems not to be food; makes you hungry; eating is comfortable. You grow stronger. Take more; not too much; enough is as much as you like and agrees with you. Satisfy hunger with usual food; whatever you like and agrees with you. When you are strong again, have recovered your strength—the germs are dead; you have killed them.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

SCOTT & BOWNE, Chemists, 409 Pearl St., New York. 50c. and \$1.00; all druggists.
